

The team of the Chair of Sport and Health Management conducts research and teaches in the area of sport and health care management. The research focuses on consumer behavior. We conduct empirical studies using state-of-the-art research methods and publish the results in leading international journals. The research often takes place in cooperation with partners from leading universities around the world.

The **Chair of Sport and Health Management** offers one position (beginning from September 1, 2019 or earlier or later depending on personal preferences) as

PhD or Postdoc

for 3.5 years in time; an extension is possible. Payment is 65% TV-L E13.

Your Tasks:

- Conduct research and teach classes (at both the Bachelor and the Master level; in English)
- Conduct empirical research. You should enjoy designing and analyzing empirical studies, presenting the results at international conferences, and publishing the results in high-impact journals
- Collaborate within an EU-funded project to visit, and work with, university and non-profit partners in various countries (Brazil, England, Greece, Japan, Scotland, Sweden, and the United States)
- Support Bachelor and Master students with their theses
- You will be engaged in administrative tasks to a necessary amount

Your Profile:

- You have a university degree and above-average grades in business, psychology, sports/health science, or in interdisciplinary fields such as sport management/economics and health care management/economics
- You are willing to contribute to excellent research and teaching standards
- You are highly interested in conducting primary research and have good statistical competences
- You enjoy working in interdisciplinary and international teams; including traveling to international partners
- You should be willing to learn German while you work at the TUM

What We Offer:

We offer a pleasant work environment in a team that thinks and acts globally. We provide guidance with your PhD thesis or postdoc studies and help applicants to pursue their personal goals. The work is practically relevant and is directed to stakeholders in the fields of sports and health. An employment as Postdoc is possible, too.

TUM is an equal opportunity employer. TUM aims to increase the proportion of women and therefore particularly welcomes applications by women. Applicants with severe disabilities will be given priority consideration given comparable qualifications.

Applications will be accepted from now on until June 30, 2019 the latest.

Please send the letter of application, curriculum vitae, copies of key documents, such as transcripts and degree certificates, list of publications, other supporting documents, and name and contact information of two professional references to joerg.koenigstorfer@tum.de. Please indicate what date you would be willing to start at TUM if you have not finished your degree yet. (You may apply if you have not finished your degree yet.)

Please contact joerg.koenigstorfer@tum.de (phone +49 89 289 24558) if you have any questions.
